# #108

## **HASSIUM**

**108** [269]

### **NAME**

Hassium was created by German scientists and named after the German state of Hesse.

#### **DENSE**

It's predicted that hassium's density is 41 g/cm<sup>3</sup>, nearly twice the highest observed density of an element.

## **SHORT-LIVED**

Hassium's longest-lived isotope has a half-life of about 16 seconds. It has no uses outside research.
